Allowable Subject Matter

1. Claims 11, 12, 13 are allowed over prior art.

The following is an examiner's statement of reasons for allowance:

The prior art of record, in single or in combination, fails to disclose explicitly the limitation of when a new waveform is being added to a plurality of waveforms in the signal, and selecting a time offset for said new waveform by determining which of a possible set of offsets is being used by a lowest number of waveforms in said plurality of waveforms as disclosed in claim 11; when a new waveform is being added to a plurality of waveforms in the signal, and means for selecting a time offset for said new waveform by determining which of a possible set of offsets is being used by a lowest number of waveforms in said plurality of waveforms as disclosed in claim 13.

2. Additionally, all of the further limitations in claim 12 are allowable since the claim is dependent upon the independent claim.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
